BROKER'S COMMENTS

This fine twin-screw displacement ketch with impeccable pedigree fell into the best possible hands in 2010 when the present owner became smitten at the right time in her life. Over the following three years he had BEATITUDE restored at Elephant Boatyard with a clear plan of what he wanted to do with her. During the ensuing five seasons she has successfully and comfortably long-range cruised UK and Irish waters, proving well mannered and self-sufficiently capable. BEATITUDE benefits from an interior layout that is practical and yet allows privacy: 3 cabins, a wheelhouse/ deck saloon with superb visibility, and cosy lower saloon - perfect for two couples or a family to cruise in vintage style, but with modern amenities and systems. A mini vintage explorer yacht or mother ship for a classic race boat perhaps? In whatever role she does it with style.

GL WATSON 47 FT MOTOR SAILER 1937/2013

Specification

HISTORY

Some yachts are special from the start; BEATITUDE certainly was, and remains so. When successful Yorkshire tar distiller and Royal Yorkshire Yacht Club member George William Mitchell of Doncaster decided to become a yacht owner relatively late in life - presumably in his retirement - he could have easily ordered a “stock cruiser” design locally from Hyland of Wakefield to be built at their Staniland yard at Thorne. Instead, in 1936 Mitchell commissioned maestros of yacht design Glasgow-based GL Watson & Co to draught his dream ship – design No. 567. The result was the only non Hyland-designed yacht built by the profusely productive Staniland yard to that point, and one that was built to last.

A combination of sound Watson specification and a yard with an earlier reputation for the stout construction of small commercial sailing vessels, especially ‘Humber Keels’, resulted in a fine and strong all round yacht. In fact her build scantlings and quality proved so good that, extraordinarily, thirty years after launching, although not originally built under Lloyds supervision, she was eventually classified by them ‘100A1’ - their highest possible grading.

War curtailed a longer relationship between Mitchell and BEATITUDE, and she became the government-requisitioned, grey all over floating base for the 14th Nottinghamshire (Trent River Patrol) Battalion of the Home Guard – “Dad’s Army”. By war’s end, Mitchell had passed away naturally and she was disposed of to Nottingham draper William Newman Granger, like Mitchell a Royal Yorkshire Yacht Club member, in whose hands she became somehow registered at the port of Glasgow, Scotland, and her name changed to NEW STAR II.

Her next change of ownership in 1953 remained “northern”, but silk merchants Mr & Mrs EW Stannard of Stoke-on-Trent cruised southern UK waters as members of the Royal Thames and Royal Southern Yacht Clubs. Certainly, when it became time to replace her original Thornycroft paraffin engines with Russell Newbury diesels, this work was done in Hampshire to Lloyds 8A1.

The Stannards were obviously meticulous owners, and perhaps it’s to them as well as to London butcher Frederick Lepard, owner from 1955 until 1968 and responsible for the Lloyds 100A1 classification, that NEW STAR II/ BEATITUDE owes her longevity up to the point of her major 2010-2013 rebuild; that and her exceptionally stout construction.

After a brief sojourn based in Jersey, she returned to home waters in the early 1970s and changed hands many times in a generally downward spiral with the Lloyds classification withdrawn in 1977.

There followed rescue from an unsavoury end by UK-based Swede, Nils Rudder, who changed her name back to the original and refitted her for a 1980s Scandinavian cruise. BEATITUDE was subsequently cared for through the 1990s by William Cooper who fell for her charms lying at Port Hamble in a rather forlorn state and managed to recover many “lost” items at Hampshire boat jumbles.

It was via a subsequent ownership that BEATITUDE found her next lover who was prepared to dig deep to give her the structural restoration that time had demanded. From 2013 he has enjoyed her with friends during extensive and successful cruises of the UK’s west coast, including the Caledonian Canal, proving well her very usable layout as a vintage explorer yacht par excellence.

Specification

RESTORATION/ REFIT

Between 2010 and 2013 BEATITUDE received an extensive structural rebuild at Elephant Boatyard on the Hamble River, England. Great care was taken

to preserve and restore the non-structural, original elements that give her so much character, whilst discretely installing all mod cons.

Specification

CONSTRUCTION

- Oregon pine hull and topsides on oak frame
- Rangoon teak deck and superstructure

- Round bilge, long iron ballast keel

Specification

Specification

MECHANICAL ELECTRICAL AND TANKAGE

Range

- More than 900 miles @ cruising speed 7 knots (1600 RPM)

- Max 9 knots (2000 RPM)

Fresh water system

- Pressurised system

- QL starboard engine calorifier water water with 240V immersion element

- Echotec starboard engine-driven watermaker, capacity >20 Imp gallons per hour

Power and drive train; generator

- 2 x Perkins Sabre M135 Diesel engines; 135 HP @2600 rpm/ 118HP @ 2200 rpm (1997)

- Engine hours at 1 Feb 2018: 939 starboard/ 972 port

- 2 x Fitted lead-lined acoustic engine jackets

- 2 x Newage PRM 302D 2:1 reduction / reverse gearboxes

- 2 x Teinbridge bronze water feed lubricated stern tubes new (2015-16)

- 2 x 2 Inch dia stainless steel shafts

- 2 x Phosphor-bronze three bladed 22 inch dia 17 inch pitch propellers

- Fischer Panda PMS 4000S (4.5KvA) Diesel generator (2016)

- Hours 1 Feb 2018: 44

Electrical

- Merlin S500 TE alternator/ battery management system

- 2 x Fallriver (HC2150) individual start batteries, paralleled to main system (2018)

- 2 x Uprated Lucas A127 70A main engine alternators

- Marine grade cable throughout; completely rewired in 2013

- 32A stainless steel shore power connector

- Victron Multiplus 12/3000/120 16A inverter with remote control panel

- 4 x Lifeline GPL-6CT AGM 6V 300Ah traction domestic batteries (2012)

- 2 x 90 Watt monocrystalline solar panels with 225 Watt Power Point regulator

- Numerous 240V outlets throughout, including engine room

Tanks

- 3 x Linked flow s/s fuel tanks under main saloon total exceeding 300 Imp gallons (2013)

- 2 x Tek-Tank 120 gallon fuel tanks in engine room new (2013)

- 3 Polyethylene water tanks under forward sole >120 Imp gallons total (2013)

Specification

NAVIGATION, COMMUNICATIONS AND ELECTRONICS

All Raymarine electronic equipment purchased and fitted in 2013

- C125 MFD Chartplotter

- 18" 4kW HD Digital Radome

- AIS 650 Class B Transceiver

- 218E VHF Radio + Hailing Horn

- SPX-30 integrated autopilot system, including p70R Pilot Control

- i70 instrument display

- 5 ½ in Sestrel binnacle compass

- Throughdeck 9 ½" diam. 12V chrome spotlight

- Kent Clearview screen

- ETON 750 satellite receiving radio

- Aquasignal LED navigation lights

- 'BEATITUDE' brass barometer and clock

- Hand bearing compass

Specification

SAFETY

- 8 man Zodiac liferaft.

- Numerous lifejackets and buoyancy aids.

- Additional manual searchlight.

- Electronic (Raymarine) Hailing Horn, plus aerosol operated horn.

- 3 x fire extinguishers ; 2 x fire blankets.

- 2 x Johnson float activated bilge Pumps / electric bilge pump alarm.

- Offshore flare pack.

Specification

TENDERS AND OTHER EQUIPMENT

- | | |
|--|--|
| - 1 x 8'6" Wooden clinker built dinghy by Jack Kay of Ardrishaig | - 1 x 'Hook & Moor' boathook |
