BROKER'S COMMENTS

The Levi Corsair is a classic express cruiser designed by Renato 'Sonny' Levi, featuring his famous race-bred deep-V hull. This 2003 boat, built at the Levi Boat Company, has breath-taking handling, a soft ride and fitted with two Volvo KAD43 diesels giving a top speed of 45 knots. Below decks she is understated but elegant! Below decks the bathroom and the galley are lavishly fitted out with marble surfaces and highly polished black granite as well as rich African walnut joinery work. The attention to detail and understated elegance are a definite trademark of the levi boat company. This vessel has had a season's use (less than 100 hours) and is still with her first owner. Very much a yachtsman's motor boat!
