Specification

BROKER'S COMMENTS

VAGABOND seems to depict the “chin up” attitude of her era – wonderfully handsome and on deck it appears little has changed since her first owner test pilot Captain Hubert Broad headed off to Torbay for King Edward VIII’s Coronation Regatta. A huge wheelhouse encourages cruising come rain or shine and her many updates - and berths below deck make her an extremely usable family yacht.

Specification

HISTORY

Saunders Roe's principal business, for which they are most famous, was in aircraft – in particular flying boats - and later as pioneers of the hovercraft. They did however apply their expertise to the building of yachts – usually for the wealthy and the relatively famous. The yachts were designed and built to order with this particular ship bearing the number 1798, having been commissioned by one Capt Hubert Broad of Schneider Trophy (2nd twice) and Gypsy Moth test pilot fame. VAGABOND's first cruise was to Torbay for Edward VIII's Coronation Regatta. VAGABOND is No 1560 on the Register of 'National Historic Ships' and is currently in the hands of her 4th - possibly 5th owner.

Specification

Specification

REFITS

Major work was carried out in 1995 - 96. Keel bolts were drawn and resealed. Her teak decks, beam shelves, deck beams were all replaced and new stainless steel water tanks installed by the Bosham boatyard. Photographs detailing condition and work are available.

The present owner acquired her in late 2007. Afloat at Michael Dennett's Boatyard at Chertsey on the Thames, she was put her through a mini refit there. This included

- Repainting the hull and interior
- Main boom rebuilt
- Oak stem rebuilt
- Complete rewiring of the main systems
- New heads; one electric and one manual plus a new holding tank
- Most of the plumbing was replaced
- Galley was refitted with a new sink and taps
- Main shower installed with tray and custom made folding glass doors and period shower
- Vanity unit fitted with new copper sink and taps
- Calorifier fitted
- Upper steering position area upgraded and fitted with new teak decks
- All cabin soles throughout replaced with grooved teak faced 18 mm marine ply
- Pilot house sole fitted with new sound proofing
- Interior upholstery replaced
- New lead light doors fitted to the drinks cabinet and storage cupboard
- New Eberspacher 6 outlet diesel fired heating system installed

Interim refit

- Hull repainted
- Decks re caulked and resealed in some areas
- Most of the port lights taken out refurbished and re-sealed
- All deck fittings (mainly bronze / brass) lifted, polished and re-fitted
- 2 coats of International anti fouling applied
- New anodes fitted in all areas

Refit 2013 14 works done; some of which already referred to in details above
2 x Beta 90 HP diesel engines and gearboxes with dual station instrumentation installed
2 x Newly fabricated 80 gallon port and starboard stainless steel fuel tanks
Fuel tankage complete with replacement filters and pipe work including crossover facility
New Kobelt brass engine controls with selectable dual stations
Complete new Kobelt hydraulic power assisted steering replacing cable driven original
Purpose built ship's wheel at lower helm and refurbished solid bronze original for upper
Mostly new wiring throughout vessel
Upgraded charging and inverter system
Refurbished galley with purpose built solid wood cabinetry

Works 2015
Hull re-painted and polished in any areas where wear and tear apparent
From bare wood full re-varnish up to 6 coats in most areas
All anodes changed
2 x Coats anti-fouling applied
All stern gear serviced and polished
All items listed - even as advisory - in recent survey effected (copy available)
